

SHAIKH AHMAD KUTTY

Spiritual EMPOWERMENT *in* Islam

based on the classical work of Imam Ghazali

The Revival of the Religions Sciences (Ihya ulum al-din) is widely regarded as the greatest work of Muslim spirituality, and has, for centuries, been the most read work after the Qur'an in the Muslim world.

The Revival of the Religious Sciences is divided into four parts each containing ten chapters. The first part deals with knowledge and the requirements of faith—ritual purity, prayer, charity, fasting, pilgrimage, recitation of the Qur'an, etc.; part two concentrates mostly on people and society—the manners relating to eating, marriage, earning a living, friendship, etc.; parts three and four are dedicated to the inner life of the soul and discuss first the vices that people must overcome in themselves and then the virtues that they must strive to achieve.
